Dear Trickey Pond Friends,

As 2020 unfolded, just like all of you, the Board of Directors of Trickey Pond Environmental Protection Association wasn't sure what to expect. As a non-profit, we depend almost exclusively on the donations of our members to carry out our mission of protecting Trickey Pond. Despite all the unique challenges of the past year, the TPEPA is happy to report that we welcomed 20 new members to our donor list including five new businesses. These donations, plus a \$2000 Maine DEP grant, allowed us to increase the hours and extend the season of Courtesy Boat Inspection coverage at the public ramp, resulting in 910 boat inspections – a record number. We are also pleased to report that the final watershed survey and shoreline report was completed by FB Environmental in October 2020. A \$3000 contribution from the Town of Naples was applied to the cost of this project. In total, the TPEPA expended 94% of revenue directly on protecting Trickey Pond and its watershed.

As we reflect on our 14th year of protecting Trickey Pond and its watershed, we are thankful for the financial support of our members and the growing culture of watershed stewardship among those who cherish Trickey Pond; a gift worthy of preservation.

Gratefully,

TPEPA Board of Directors

## PROTECTING TRICKEY POND

---

In 2020 94% of total money spent by the TPEPA was used to directly protect Trickey Pond.

The watershed study & shoreline survey were completed and work has begun to remediate identified erosion sites.

Your support allowed us to increase boat inspector hours to achieve a record number of 910 boat inspections in 2020.

A boat inspector for one day in 2021 will cost the TPEPA \$155.

Please consider sponsoring a day of inspections next year!
